

ANKIT TIWARI

📍 Delhi, India | 📞 +91 6394848987 | ✉ a17tiwari@gmail.com | 🔗 linkedin.com/in/ankit-tiwari-96886037

PROFESSIONAL SUMMARY

Results-driven **Software Developer** with **2+ years** of hands-on experience designing, developing, and deploying enterprise-grade web applications. Core expertise in **ASP.NET Core**, **C#**, **SQL Server**, **Web API**, and **MVC architecture**. Proven ability to architect secure **RESTful APIs** with **JWT authentication**, build scalable FinTech transaction engines, and deliver production-ready systems using **Laravel**, **Node.js**, and **React.js**. Strong collaborator with a track record of leading small development teams, improving system performance, and driving clean-code practices across agile environments.

TECHNICAL SKILLS

Languages	C#, PHP, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
Backend	ASP.NET Core, Web API, MVC, Entity Framework Core, Laravel, Node.js (Express.js)
Frontend	React.js, Razor Pages, Bootstrap, Tailwind CSS
Databases	Microsoft SQL Server, MySQL, MongoDB, Supabase
DevOps & Tools	Git, GitHub, Docker, CI/CD (GitHub Actions), Linux, Postman, Visual Studio, VS Code
Concepts	REST API Design, JWT & OAuth Authentication, Microservices, Payment Gateway Integration, Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior Software Developer Sep 2025 – Present
Harifly Technologies Pvt. Ltd., Delhi

- Architected and deployed FinTech platforms powering **digital wallets**, **AEPS**, **UPI**, and **payment gateway integrations**, processing 1,000+ daily transactions with 99.9% uptime.
- Engineered secure, high-throughput REST APIs using **ASP.NET Core Web API** and **Node.js**, reducing average response time by **35%** through query optimization and caching strategies.
- Designed and implemented real-time transaction processing pipelines with comprehensive validation, audit logging, and automated reconciliation workflows.
- Built responsive admin dashboards in **React.js** with role-based access control, enabling operations teams to monitor transactions and manage users in real time.
- Collaborated with cross-functional teams (QA, DevOps, Product) to establish CI/CD pipelines, cutting deployment cycles from days to under **2 hours**.

Software Developer Jan 2025 – Sep 2025
Bhoomi Techzone Pvt. Ltd., Noida

- Developed and maintained enterprise web applications using **ASP.NET Core MVC**, **C#**, and **SQL Server**, serving 500+ active users across multiple business verticals.
- Built modular **RESTful APIs** with **JWT authentication** and role-based authorization, ensuring secure data exchange and OWASP-compliant endpoints.
- Optimized complex SQL queries and stored procedures, improving report-generation speed by **40%** and reducing database load during peak hours.
- Led a team of 3 developers through sprint planning and code reviews, consistently delivering features on schedule with zero critical post-release defects.
- Integrated third-party payment and notification services, expanding platform capabilities and automating manual workflows.

Trainee Software Developer Aug 2024 – Dec 2024
Bhoomi Techzone Pvt. Ltd., Noida

- Developed full-stack features for internal tools using **ASP.NET Core** and **Laravel**, accelerating module delivery timelines by **20%**.

- Integrated third-party APIs (SMS gateways, payment processors) and performed end-to-end testing to ensure seamless production deployments.
- Contributed to CI/CD pipeline configuration using **GitHub Actions** and **Docker**, reducing manual deployment effort and improving release reliability.

KEY PROJECTS

FinTech Wallet & Payment Platform — *Node.js, Laravel, React.js, MySQL* sales.harifly.com

- Built end-to-end backend APIs supporting AEPS, UPI disbursements, and automated bank reconciliation, handling high-volume concurrent transactions securely.
- Developed role-based admin dashboards with real-time transaction monitoring and analytics.

School ERP System — *ASP.NET Core, C#, SQL Server, MVC, Entity Framework*

- Engineered a comprehensive ERP solution managing student enrollment, attendance tracking, grade reporting, and fee collection for 2,000+ students.
- Designed a modular **MVC architecture** with role-based portals (Admin, Teacher, Parent), ensuring scalable, maintainable code and robust data integrity.

Secure Auth Service — *.NET 10, MongoDB, JWT, BCrypt*

- Architected a high-performance identity provider featuring **JWT-based authentication**, BCrypt password hashing, and token-refresh mechanisms.
- Integrated a scalable **MongoDB** data layer optimized for user persistence and future microservices expansion.

Delhi Parcel — Logistics Platform — *Laravel, MySQL, REST API* delhiparcel.com

- Developed a logistics platform with real-time shipment tracking, automated dispatch routing, and delivery-status webhook integrations.

SKG Enterprise — E-commerce Platform — *React.js, Laravel, REST API, MySQL* skgenterprise.com

- Built a full-stack e-commerce platform with product catalog, cart, order management, and optimized REST APIs powering a multi-vendor architecture.

DoctCare — Healthcare Platform — *Laravel, MySQL, REST API* doctcareservices.com

- Developed an online healthcare platform with appointment booking, doctor listings, patient records, and a CRM admin panel.

iBooking — Yacht & Travel Booking — *Laravel, PHP, MySQL, Tailwind CSS* ibooking.in

- Built an online booking system with reservation management, dynamic search, and a customer portal with booking history.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering 2014 – 2018
Chhatrapati Shahu Ji Maharaj University (CSJMU), Kanpur

ACHIEVEMENTS & LEADERSHIP

- Served as **Technical Head** for the annual college technical fest, coordinating 10+ events and managing a team of 25 volunteers.
- Secured **1st place** in inter-college coding competitions, demonstrating strong problem-solving and algorithmic thinking skills.
